

To Whom It May Concern:

Mike Merrick worked for me on three separate jobs last year in our vintage 1908 house in Berkeley: a complete bathroom remodel including moving a wall, installing a new window, fixtures, and plumbing, updating the electrical wiring, laying a tile floor, and repairing damage done to the ceiling below the bathroom; repairing a side entrance to the home so that rodents could not get in; and adding an interior wall, framing closet space, sheetrocking, and adding doors to create two bedrooms where there was once just one.

On all phases of the job, whether planning the project; helping me select fixtures, paint colors, and materials; doing the actual construction; or dealing with inspectors, Mike is efficient, courteous, and professional. Thanks in part to the quality of Mike's work, I sold my home in Berkeley for a very nice price.

If I had not moved to Wyoming, I would be asking Mr. Merrick to help me with the projects I have planned for my new home.

If you have any questions about the scope or quality of Mike's work, please call me at 510.541.2685.

Sincerely yours,

Sheila Carter-Burke
